DRYS CARRY FIGHT

SALOONS ARE VOTED OUT OF MADISONVILLE.

Hard And Bitter Fight And Anti-Saloon People Won by a Majority of 37.

MADISONVILLE, Ky., July 9.—After one of the most bitterly contested liquor campaigns in the history of the state, Madisonville Wednesday voted to eliminate the saloons. The "drys" carried the day by a majority of 37, the total vote being 1155.

There are about 500 negro votes in the town. The negroes voted almost solidly with the saloon men.

The temperance forces work hard throughout the day, women and children parading the streets.

The saloons will remain in operation for about a year. There will be a "dry" period of about two years before the question may be put before the people again.

BULLET IN HIS FOOT

DID NOT STOP WEDDING OF DUSKY LOVERS

Charles McKnight and Bertha Steadman, colored, of the Beverly neighborhood, secured, this week, a license to wed, and when McKnight called to get the girl, her father opened fire on him with a pistol, shooting four times. One ball hit him in the foot and he retired from the field. He came to the city and had his foot dressed by Dr. E. C. Anderson and returned. Watching until the irate father was away, he secured the dusky damsel, drove hurriedly to a magistrate and they were married.

CONVENTION ABOUT READY TO NOMINATE OUR NEXT PRESIDENT

Remarkable Demonstration Over The Name of Bryan.
—Two Important Planks in The Platform.

DENVER, Col., July 9.—The nomination of a candidate for president will be made this afternoon by the Democratic national convention.

In all probability, William Jennings Bryan, of Nebraska, will be named on the first ballot. However, Col. James Guffey, of Pennsylvania, chief of the anti-Bryan men, whose contesting delegation was beaten in the convention last night, claims that the vote, 615 to 387, shows that Bryan will not be able to land the necessary two-third votes on the first ballot.

The demonstration at the national convention yesterday when William Jennings Bryan's name was mentioned by Senator Gore broke all records of National conventions to enthusiasm and duration. The cheering lasted for exactly one hour and thirty minutes, full thirty minutes longer than for Roosevelt at the Republican convention at Chicago.

The resolutions committee spent the entire day at work upon the platform, and finding that the subcommittee would be unable to finish its task in a reasonable time, it was sub-divided and committees of three were named to write individual planks. The tariff plank was submitted and approved. It calls for an immediate reduction of the duties on all necessities of life, on all articles manufactured by trusts, and singles out print paper and wood pulp as articles which should be on the free list.

The subcommittee appointed to draft an injunction plank reported a few minutes before the committee took a recess stating through Williams, its chairman, that three members, himself, Judge Parker and Sullivan, had reached a complete agreement.

He also made the announcement that the plank had been scrutinized by the officers of the federation of labor and it was acceptable to them. The plank as thus recommended takes a position favorable to the placing of labor disputes on the level with other disputes, and against the courts regarding laborers different from other classes of citizens. There is no requirement for notice previous to the injunction proceeding, because Gumpers has said that none would be demanded providing there could be a cessation of discrimination against the labor element.

CASTORIA.

It's Kind The New Always Bought

Beware of

ABOUT 84 PER CENT

OF CROP AND NEARLY ALL OF IT POOLED.

Commissioner of Agriculture Makes a Report on Tobacco and Other Farm Products.

Commissioner of Agriculture M. C. Rankin has issued the following crop report:

Dark Tobacco.

There has been reported to us that there will be about 84 per cent of a full crop planted in the dark tobacco district. The prospect is that nearly all of this will be pooled. There are fifteen counties that constitute the above percentage in the second division. There are fifteen counties in the first division that report 10 per cent of the full crop planted and an average of 92 per cent in the whole dark tobacco growing district.

The weather throughout the state for the whole month of June was unseasonably warm, and there was practically no rainfall. There was a high percentage of sunshine, causing general drought.

Wheat.

The weather has been very favorable for the harvesting of wheat and rye. In many sections threshing has commenced and a good yield is being shown as fine a quality as has been known for several years. We have had several reports of insects damaging both straw and the grain.

Oats.

The oat crop for several years has never been so poor. The drought has caused almost a total failure in many sections of the state and dry must has helped to make the failure.

Hemp.

The hemp crop is growing splendidly, but is badly in need of rain. The harvest of bluegrass seed was one of the largest known and the quality is good, although a lot of weeds were present.

Corn.

The corn crop will be an average one, although the lateness of planting and the hot weather causing acidity of the soil in the lowlands and causing the seed not to germinate worked a hardship. Many farmers had to replant their corn for the second and third time.

There is little of either of barley or millet grown in the state, but both crops are doing well, but badly in need of rain.

Fruit.

There will be about one-third of a crop of fruit. There were few cherries and plums are not bearing very heavy, as the destructive black knot has done great damage to the damson plum trees and there will be few, if any, damson plums this season. The pruning process does not seem to check the ravages of the black knot. In some sections of the state there is a full crop of apples and peaches, while in other sections both crops are almost a total failure.

Grasses.

Clover and grasses are not as good as early prospects indicated, but many farmers are being able to cut and house their hay without rain, so that the average will be increased for that reason. Alfalfa is doing well and there is a very increased acreage throughout the state.

CUTICURA PROVED ITS WONDERFUL EFFICACY

"I am now eighty years old and one morning, three years ago, I was taken with a hard pain in my right side. In two days I had an attack of piles (hemorrhoids), bleeding and protruding. The doctor gave me some medicine and an ointment for them which helped me some but I had to keep using them all the time. Then I changed to the P. I would get worse. The doctor said the only help for me was to go to a hospital and be operated on. At this time, about a year ago, I tried them for four or five months but did not get much help for my piles. During this time I would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These sores changed to eczema, accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an inflamed condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Soap and warm water in the morning, at noon, and at night, then used Cuticura Ointment on the irritated surfaces and injected a quantity of Cuticura Ointment with a Cuticura Suppository Syringe. I also took Cuticura Resolvent Pills three times a day. It took a month of this treatment to get me in a fairly healthy state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Cuticura. The treatments I had tried took a lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now. I am supplied with a full set of the Cuticura Remedies and would not feel safe without them. J. H. Henderson, Hopkins, St. Lawrence Co., N. Y., Apr. 26, 1907."

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance, the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and cald pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Weak Kidneys WILL AID FARMERS

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, and the lungs, are not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is cloudy, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney diseases, try Dr. Shoop's Restorative month-ly. Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

GILES-JONES.

The news of the wedding of Garland Jones and Miss Lalla Giles at Clarksville Tuesday afternoon, came as a complete surprise to nearly everyone in Hopkinsville. The affection of the parties for each other was well known to the friends of both, but no one, except a very few intimate friends, who had been let into the secret, had an idea that the wedding was contemplated at such an early date. The arrangements had all been made however and the marriage was strictly in accordance with these plans.

Mr. Jones left here Monday morning for the home of his intended, where he had announced that he would spend the week. Tuesday morning he and the young lady, accompanied by Cleveland Guthrie, a close friend and fellow salesman in the store of Anderson & Co., and Miss Irene Giles, a sister of the bride, drove through to Clarksville where the ceremony was performed. The marriage took place with the full consent of everyone concerned. After the ceremony the party returned to the bride's home where Mr. and Mrs. Jones will remain through the week, after which they will return here to reside.

The groom is a son of the late Garland Jones. He was born and reared near Pee Dee, in Trigg county. He came here about four years ago and accepted a position in the clothing department of Anderson's store where he is now regarded as one of the most valuable salesmen. He is a young man of sterling worth and is held in the highest esteem by everyone. The bride is the youngest daughter of Mrs. L. A. Giles, and is a young lady of many noble and attractive traits of character and is very handsome. She formerly attended school here and has many friends in this city.

IN GETTING LABORERS TO WORK ON THEIR PLACES.

Government is to Act as Great Employer—Agency Through Postmasters of The Country.

Through the department of commerce and labor and the post-office department, Secretary Straus and Postmaster General Meyer have inaugurated a plan of service which is hoped will relieve farmers and others in this country from embarrassment in getting help. The details are being worked out by T. V. Powderly and Assistant Postmaster-General T. N. De Graw. This plan contemplates a general distribution of admitted aliens and others seeking employment. There are being forwarded to postmasters throughout the United States packages of cards, with return attachment for distribution to farmers and others who are likely to need the service of farm or other laborers or mechanics, and who may obtain the character of help required by mailing the return information card properly filled out without payment of postage.

For the service, no charges are to be made or fee accepted either from employer or employee. In case where labor is not needed at this particular time the applicants may be restrained by prospective employers for future use. The work of selecting suitable laborers will be given especial attention by experts.

CALLS CONVENTION

TO ORDER AND TEMPORARY
CHAIRMAN IS SPEAKINGTom L. Johnson is Defeated by Gar-
ber For National Committeeman.—
Ollie James' Boom.

DENVER, Col., July 7.—The Democratic National convention, with a great and enthusiastic attendance was called to order at noon today by Thomas T. Taggart, of Indiana, chairman of the national committee. After a feeling and impressive prayer by the chaplain, the official call was read by Secretary Woodson. This was followed by the introduction of the temporary chairman, Theo. A. Bell, of California, who is making a keynote speech.

Urey Woodson, of Owensboro, Ky., will be chosen permanent as well as temporary secretary.

Immediately after the appointment of the committees, resolutions on the death of Grover Cleveland will be presented and as a mark of respect to him the convention will adjourn until tomorrow. Judge Parker has prepared a modified resolution, and the Bryan men also have one. It is not known which will be presented.

There are enough instructed delegates to make Bryan's nomination

TOM L. JOHNSON.

as certain—if not more certain—than was that of Taft at Chicago. The anti-convention campaign for instructions has gone on for months, and there is no doubt that the rank and file of Democratic voters want Bryan more than any other candidate.

One of the surprises of the day was the defeat of Tom L. Johnson, of Cleveland, for national committeeman. He was beaten by Garber.

Vice presidential booms are numerous. One of the healthiest is that of Hon. Ollie James, congressman from the First Kentucky district.

The national committee decided all of the contests for seats in the Denver convention with the exception of those from Pennsylvania and Idaho. In nearly every instance the delegates holding regular credentials were given places on the temporary roll. Tom L. Johnson, of Ohio came out a victor as did Roger Sullivan, of Illinois, while former Senator Dubois won in the sub-committee and will probably be seated by the full committee. Pat McCarran, of Brooklyn, was so bitter in his attack on Murphy and Coler that the committee stopped him and declined to hear him any further.

STAND EXONERATED

Charges of Bad Conduct by State
Guard Not Sustained.

A mark of credit is due the state of Kentucky with the exoneration of the Owensboro company, state guards, which was accused of rowdism at union station in Paducah on the night of June 8. The charge was preferred against the soldier boys by Inspector Miller, of the National Hotel company. The inspector said the local manager of the depot restaurant complained that the boys were drunk and disorderly and that after they left the depot several articles from the restaurant were missing.

Capt. A. G. Chapman, of Hopkinsville, who is under Major Bassett, was in Paducah Friday taking testimony and his inquiries as to the conduct of the guards proved that there was no act of rowdism on their part and they behaved themselves as gentlemen. When he returned to Hopkinsville Friday afternoon, Capt. Chapman was convinced that there was no mark of discredit against the boys.—Paducah News Democrat.

CAMPBELL CANTRILL'S
STIRRING ADDRESS FOR
SOCIETY OF EQUITY

Ex-State Senator J. Campbell Cantrill, state president of the Society of Equity, spoke at the courthouse here Monday afternoon in the interest of that organization. He was heard by a very large crowd, and was introduced by Squire Henry C. Helsley, county president. The speaker made an eloquent plea for the farmers to organize, if not for their own good, then for the sake of their homes and their families. The speech was frequently and vociferously applauded.

In beginning his address, Mr. Cantrill said that the growers of the burley district had followed the example of the farmers of the dark tobacco district in forming their organization; that the tobacco raisers of the black patch had been organized for some time when it was proposed to get together in the central part of the state, and that the burley growers would never have had nerve to take the first steps had it not been for the force of the example set before them by the success which had come to the dark tobacco growers' association. Once started, the plan of organization had been carried out, he said, with a determination which had brought about the best of results and which in the face of strongest opposition, had been the means of selling tobacco at prices the farmers had put upon it and not those set by the trusts.

Opposed to Force.

He said that a resort to force was never to be countenanced and that ends were more certainly secured by good humored argument. Like Chief Justice O'Rear, he did not believe that "an idea could be poked into an Anglo-Saxon's head with a bayonet." He said it was a fact that towns were dependent upon the country and that it was to the interests of the merchants and citizens of the town to get behind the farmers, movement and give it their hearty support. He declared that the farmers were under no obligation to any man or set of men, and had a right to expect a square deal from everyone. As an example of the statement that the Kentucky farmer was the most comfortably situated man of the present day, he referred to the financial panic and declared that while Morgan, Ryan and the other money kings were begging for money on their knees, the farmer was resting easy and living comfortably, by reason of the better prices which had come to him for his products as the result of organization.

He declared the Society of Equity stood for only what was right and just between all men, and drew the line distinctly between a fair and profitable price for tobacco and other farm products and an extortionate and unreasonable price. He said that the Society of Equity had nothing but the best of feeling for all other organizations working to the same end. He pointed out the aims and purposes of the Society of Equity as being the pooling and control of prices not only on tobacco but on every other product of the farm. He referred to what had already been accomplished along this line with wheat and tobacco.

Too Many Doctors.

He said that one of the chief troubles with the farmers' organizations was that they had too many doctors, and that if the farmers were let alone they would work out their

ultimate salvation. He declared that no organization stood more firmly for law and order than did the Society of Equity and that he had proclaimed it in public speeches for the past two years. He said that people should not be misled by what he designated as a set of corporation lawyers in Louisville whose object was to break up the farmers' organizations, and that if Law and Order leagues would turn their attention to regulating the trusts that peace and harmony would reign.

Mr. Cantrill referred to what had been accomplished in the burley district, stating that with two crops on hand it was decided to eliminate the crop of this year, and that more than five per cent of a crop had been planted out of an average production of 150,000,000 pounds.

Gives Him a Rest.

Rather than this working a hardship, he declared that it had proven a blessing for the farmer had secured a rest from the hard work necessary to produce a crop, and had learned that he could get along just as well without raising tobacco and that many children who had formerly worked in the tobacco fields were now going to school and securing an education. Referring to the results which had been attained he said that it looked mighty good to a farmer to get a check for his tobacco at 80c a pound and much of it had been sold at this figure; that every hog-head of the 1906 crop which graded under \$16 had now been sold and only ten or twelve hogheads graded above this figure remained unsold. He said further that if the 1907 crop of 110,000,000 pounds did not bring a round price of \$20 there would be no crop grown in 1909.

Referring to the present status of Kentucky in regard to her educational standing, Mr. Cantrill said that this was due largely to the fact that with tobacco selling at six cents in the burley district and at three cents in the dark district, hundreds of children had to be taken from the schools and put into the fields and were thus made serfs of the American and Imperial tobacco companies. He pointed out that in past twenty years the decrease in illiteracy among the negroes amounted to 30% and that of the whites to only 9%. He said this was due to the fact that the negroes had largely deserted the tobacco fields and had moved to town and put their children in schools, 90% of the expense of which was paid by whites.

A fervent tribute to the wife and children of the Kentucky home closed the speech. In this Senator Cantrill pleaded with the farmers to organize for thereby he was working for the benefit and the uplifting of his loved ones and upbuilding of the Old Kentucky Home.

Resolutions Adopted.

The following resolutions were adopted by the business session of county society in the morning:

Resolved, that the thanks and gratitude of the county union, A. S. of E., is hereby expressed to the First National bank of Hopkinsville for their spirit of liberality in furnishing our salesman funds to make advances on our tobacco and while we realize money has been stringent, we realize they have been liberal and have enabled us to market and hold our crop. REMANDED TO JAIL

PENDING THE ISSUING OF
REQUISITION PAPERSBurgess Will Have to be Tried in
Mississippi.—His Trigg County
Bond Partly "Straw."

In the case of J. M. Burgess, charged with obtaining money under false pretenses, the defendant was remanded to jail as a fugitive from justice by County Judge Prowse, who refused a writ of habeas corpus.

Burgess, whose checkered business career has kept him in the public eye for a good while, is charged by F. T. Smith, of Jackson, Tenn., with defrauding him out of \$1500 in a timber deal in Mississippi.

Mr. Smith, who was here personally to prosecute the case, left for Mississippi to get the governor of that state to issue requisition papers on the governor of Kentucky for the return of Burgess to Mississippi for trial.

Burgess sought to avoid arrest on the Mississippi charge, on the ground that he was under bond for trial in Trigg circuit court. Judge Prowse investigated the bond and came to a conclusion that it was partly "straw," and that the ends of justice would be best subserved by sending Burgess to Mississippi.

In the face of one of the worst money panics ever known to our people.

We hereby express our confidence in our salesman, H. H. Abernathy, and we can say truthfully, he has handled our tobacco satisfactorily, weighing correctly, pricing and selling in the best approved manner, and paying promptly for all tobacco sold. We have full confidence in his ability and judgment as a tobacco man and heartily recommend him to members of the A. S. of E.

We feel justly proud of our record this year in selling tobacco at full market prices and heartily recommend our organization to growers. We are grateful for the many expressions of kindness and wishes of success expressed by people not members of our order. We have full confidence in the buyers who have patronized our organization and promise our best endeavors to keep our tobacco business up to the high standard it has attained.

We express our thanks to and our confidence in our graders and officers generally who, by their strict attention to business, have shown their faith in the order and have conducted their business in a highly satisfactory manner.

We denounce as detrimental to the best interests of our order all lawlessness, and especially night riding, and recommend to our membership strict compliance with the laws of our land and we promise to use our best efforts in upholding our laws and seeing to their enforcement whenever in our power.

We respectfully invite and urge all farmers who have not pooled to pool their crops with us and we promise our best efforts to protect their interests.

CELEBRATE FOURTH

PICNICS AND BARBECUES ORDER
OF THE DAY.Old Soldiers at Saddlers Grove.—To-
bacco Men Have Grand Time
at The Cave.

The glorious Fourth was pretty generally celebrated one way or another in and around Hopkinsville Saturday. Not enough fireworks were shot off to frighten an automobile, because the southern custom of saving explosives for Christmas still obtains here, but picnics and outings of various kinds were enjoyed, and the holiday was happily spent by hundreds of people.

There were a thousand folks at Saddlers Grove to attend the annual meeting of the old soldiers, western Kentucky Federal soldiers association. A sumptuous basket dinner was served. W. S. Witt was re-elected president of the association and C. A. Brasher secretary. An excellent program of music, recitations and speeches was a feature of the occasion. A patriotic address was delivered by J. T. Hanbery, of this city. S. Y. Trimble, who was to have spoken, was prevented by business engagements from being present.

At Campbell's Cave, the tobacco men had a fine time, large time. About one hundred and fifty men were present and the dinner was one of the best ever spread for them. The meats were barbecued, and everything appetizing was provided. A picnic and brand dance was given at Fleming's Cave, and this was also a very pleasant entertainment. Out at the waterworks lake, another picnicking party had a big time. At Trenton, an Association barbecue was given, and was largely attended. The feature of the occasion was a speech by the Hon. S. Walton Forgy of Trenton.

Heat prostrates the nerves. In the summer one needs a tonic to offset the customary hot weather nerve and strength depression. You will feel better within 48 hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course you won't get entirely strong in a few days, but each day you can actually feel the improvement. That tired, lifeless, spiritless, feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a falling appetite; it aids digestion; it will strengthen the weakened kidneys and heart by simply rebuilding the word-out nerves that these organs depend upon. Test it a few days and be convinced. Sold by Anderson-Fowler Drug Co. (Incorporated.)

ENDS LIFE AT PAKTY.

OWENSBORO, Ky., July 6.—After telling a young woman that she would be sorry for not talking to him, Percy Smiley, aged twenty-two years, stepped from the porch of a country home where a party was being given and fired a bullet through his heart. It is said that Smiley was jealous of his sweetheart, believing that she was receiving too much attention from other people. He was a son of a well known farmer.

PUSH UP CLOCK

LONDON, July 8.—"The daylight bill," a measure by which the United Kingdom is to be lured into starting the day's work one hour ahead of the time indicated by the sun, has received the unqualified blessing of the select committee of the house of commons, and all indications now point to its becoming effective next April. The bill proposes to advance the clock one hour in April in order to promote the greater use of daylight and to give the masses one hour more playtime by light of day. For scientific purposes and navigation. Greenwich time is to be maintained.

McLEAN COLLEGE

Name of South Kentucky College is Changed.
—The Reasons Are Set Forth.

To the Friends of South Kentucky College:
This announcement is to inform you that the name of South Kentucky college is about to be changed. Indeed, the resolution to change it has been passed already, it only remains to complete the simple but necessary legal procedure prescribed for such a case. It has been resolved by the trustees, the alumni concurring in their action, to name the institution McLean college, in honor of Archibald McLean, president of the Foreign Missionary society and formerly president of Bethany college.

As a friend of the college, you are entitled to know some at least of the chief reasons which have led its managers to take this step. The following are submitted for your consideration in the confidence that they will seem to you just and sound:

(1) The old name is one of several names of schools of some reputation having the word "Kentucky" in them. This has proven confusing; mail has been miscarried and the benefits to us of costly advertising have been partially lost because our name has not been sufficiently distinctive.

(2) The old name makes no strong appeal to any save those who are or have been citizens of South Kentucky, a misfortune it seems to those charged with the affairs of the school; for they would have it understood that they are seeking to supply such means of education as would be of equal value to the youth of all sections. Further, in asking

as we are doing for further endowment, we believe that the old name is a weighty handicap wherever our agents go beyond the limits of our own immediate vicinity.

(3) The name McLean is at once distinctive, widely known, and destined to be permanently remembered. It is historically most appropriate with all. It was the first president of South Kentucky college, Enos Campbell, who trained and saw sent out the first missionary to the heathens who went from the churches of the restoration.

Now, after fifty-eight years, the spirit of that old-time association is to find a fresh and noble expression. Missions and the college are in the new name visibly and audibly joined in a most happy and conspicuous way. This name will be a perpetual challenge to those who conduct the college. It will mightily approve or severely condemn these accordingly as they try to widen or to restrict the kingdom of Christ. It will continually suggest that missions must be educational, and that they must be so abundantly proven by experience; so must right education be missionary.

(4) Lastly, the name of A. McLean has, we are sure, a positive present business value to the college. It will obtain for it attention and consideration in quarters where it has never been known before, and some, we doubt not, will out of the respect they feel for it become interested in the substantial help of the institution. UNCLE REMUS DEAD

ATLANTA, Ga., July 6.—Joel Chandler Harris, of "Uncle Remus" fame, died at his home in this city. His death had been known to be inevitable for hours, as he had suffered from cirrhosis of the liver, with complications that affected his heart.

Mr. Harris was conscious and talked cheerfully to his wife and children, who were gathered about the bed. At the last he remarked in a low tone:

"I have always been curious to know what was on the other side." Then he sighed and said: "I am very tired," and became unconscious.

He was born in Eatonton, Ga., on Dec. 8, 1848, and was a printer's apprentice in 1860 and later served as an editorial writer on southern newspapers, becoming editor of the Atlanta Constitution, which place he held for twenty-five years. He founded Uncle Remus' magazine a year ago.

The badge of honesty is on every wrapper of Dr. Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its worth as an alterative and tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principals of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Blood root and Black Cherry bark are extracted and preserved by the use of chemically pure, triple refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which tells of well recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe and Ellingwood that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all "wasting disease" where there is loss of flesh and gradual running down of the system.

STRENUOUS VACATION.

OYSTER, BAY, N. Y., July 6.—President Roosevelt, in the first two weeks of his vacation, has succeeded in doing considerable work in the fields and woods on his grounds at Sagamore Hill, besides entertaining many visitors and holding conferences with Mr. Taft. His activity never halts. If there is no work on the grounds of his estate he spends his time in reading or in recreation in the form of tennis, riding, swimming or in rowing.

ABOUT THE WEED

Business on the local tobacco market picked up wonderfully during the past week as compared with the week before. The demand was stronger, prices were fully up to the standard and sales were numerous.

The Planters Protective association disposed of 177 hogheads at prices ranging as follows: Leaf, low, \$10 to \$10.50; common, \$10.50 to \$12; medium, \$12 to \$14; good, \$14 to \$16; fine, \$16 to \$18. Lugs, low, \$7 to \$7.50; common, \$7.50 to \$8.50; medium, \$8.50 to \$9; good, \$9 to \$10; fine, \$10 to \$11. Cigar wrappers, \$12 to \$15. Binders, \$10 to \$11. Fillers, \$7 to \$10.

Receipts for the year amount to 6,344 and sales to 2,387 hogheads, leaving 3,957 hogheads yet on hand. Indications for next week are bright for a continuance of the activity shown last week, and it is believed that the unsold portion of the crop will be disposed of in a short time.

With the Society of Equity warehouse business is said to show more strength this week, although no detailed report was made. Sales were heavier and prices ruled firm and in accord with the schedule adopted by the organization.

The new crop is now all planted, and replanting the missing hills has been completed also. It has grown off well, and some of it is ready to be topped. Authorities estimate the acreage to be from 15 to 20 per cent over last year or 85 to 90 per cent of what is regarded as an average crop. Continued rains have prevented cultivation in many sections, and the fields are getting rather grassy, but with this exception the crop promises to mature into an average yield, considering the decreased acreage, both in quantity and quality.

GOVERNOR DENIES

AN ALLEGED INTERVIEW ON THE
TOBACCO SITUATION.

Magazine Story Was Published With-
out Corrections.—What He
Did Not Say.

FRANKFORT, Ky., July 2.—Gov. Willson was shown the Kentucky State Journal of June 24, crediting the Winchester Democrat with a reprint of what purported to be an interview with him printed in the Cincinnati Enquirer of June 14, on "What Gov. Willson says and thinks of the tobacco growers of Kentucky." The article has been given wide publication in the country papers and the tobacco periodicals and was evidently intended to injure Gov. Willson with the tobacco growers. It was the first time that the governor's attention had been called to the item as he had been absent from the capital for two weeks. After its perusal he gave out the following statement:

The interview published under the headlines, "What Gov. Willson Says and Thinks of the Tobacco Growers of Kentucky," is not about the growers but about the laborers. Two weeks ago, at the conference of governors at Washington, by request, he gave Mr. Morrow, a magazine writer, a brief, verbal interview on the tobacco situation, with the understanding that it was to be submitted before publication, and Mr. Morrow's recollection of it was submitted, and, while in part approved, was very extensively corrected, because Mr. Morrow, while writing in a friendly spirit had made quite a long story on a short talk, and large part of the story was seriously inconsistent with the governor's knowledge, belief and opinions. But the return of the corrected paper was unavoidably delayed, so that the original was published without the corrections.

Gov. Willson has not said to any one that most of the tobacco laborers are white, his impression has been that they were not. He has never

Former Christian Countian is an Candidate For The
Democratic Nomination.

SPRINGFIELD, Ill., July 1.—Hon. Adlai E. Stevenson, of Bloomington, will make the contest for the Democratic nomination for governor at the primary August 8. Stevenson petitions are being circulated today. Mr. Stevenson was vice-president of the United States during President Cleveland's second administration. Other candidates for the nomination are: Col. J. Hamilton Lewis, of Chicago, former congressman from Washington and former corporation counsel of Chicago; Hon. Douglas Patterson, of Freeport, Democratic leader in the Illinois house, and Hon. John P. McGoorty, member of the Illinois house.

ADLAI E. STEVENSON.

said that they "generally live in huts." His belief is that such a statement is absurdly untrue. He has not said and does not believe that they "compel their women and children to go into the fields." He has never said and does not believe that they (the tobacco growers) "are as a rule lawless and violent."

The governor has uttered no libel on them or any class of Kentucky people. He believes that raisers of tobacco in Kentucky are like other people of Kentucky, as a rule, honest and good citizens, and the governor is not "grossly ignorant" of this fact, nor has he "misrepresented them." The governor honors and loves the people of Kentucky, earnestly feels his debt of gratitude to them and is working with no personal end but trying to give them faithful service and pay them unfailing honor and praise. He has no word of reproach or unfriendliness for the tobacco growers or laborers. He has opposed the power of the state to the violence of a comparatively small number of men who have banded together to intimidate others and to injure them and their property, professedly in the interest of tobacco men, but undoubtedly to the great hurt of all tobacco growers and workers, and there will be no thought of change or letting up in the earnest maintenance of law and order and liberty

under the law. Instead of abusing the good name of the tobacco men of Kentucky, the governor has made it his policy generally to refuse to talk for publication on Kentucky troubles, holding firmly to the policy of helping the officers of the law to suppress the troubles and with all necessary force and not by abuse or scolding, published or unpublished.

GOVERNMENT OFFERS OPPOR-
TUNITIES IN FARM LAND

Located in North Dakota, Montana,
Wyoming And Nevada.—Washing-
ton Will Furnish Information.

The New Era is requested by the
department of the interior to publish
the following notice.

A number of exceptional oppor-
tunities are now being offered by the
government for enterprising and in-
telligent farmers to secure choice
farms on a dozen or more large irri-
gation projects which are nearing
completion.

Owing to the rapid narrowing of
the limits of the unoccupied public
domain, it is doubtful if these oppor-
tunities will ever occur again. It is
probable, therefore, that the west
will see one of the greatest influxes
of homeseekers in 1908 than has
been witnessed in many years.

The great fertility and wonderful
crop yields from irrigated lands,
and the favorable terms the govern-
ment offers settlers, warrants the
belief that before the year closes not
a single farm will be without its
entryman. These farms are located
in North Dakota, Montana,
Wyoming and Nevada.

A letter addressed to the Statistic-
ian U. S. Reclamation Service Wash-
ington, D. C., will secure full infor-
mation concerning the location, soil,
climate, crop possibilities, and terms
of disposal.

Maj. John H. Leathers, of the
famous Orphan Brigade, is planning
for the annual reunion of that or-
ganization to take place in Louisi-
ville during the Kentucky State
Fair instead of at Pewee Valley as
usual. It is customary to hold the
reunion on the anniversary of the
battle of Chickamauga, September
19 and 20. Of the 300 surviving
members of the brigade, thirty live
in Louisville.

FRIDAY, JULY 10, 1908

With fine irony the Springfield Republican observes that when the bottom begins to fall out of the stock market as it did recently what the stock stock exchange ought to do is to stop the trading and have read the plank in the Republican platform concerning the recent safe passage of the American people through a financial disturbance. That would at least serve to lighten up the doom of values with a laugh.

It is said that the typewritten copy of Senator LaFollette's speech tipped the scales at nineteen pounds. It evidently was a heavy argument, but paradoxically, it did not carry much weight.

Senator Foraker cannot be trusted to deliver any keynote speeches. He would be certain to thump too hard on the black keys.

"You have a beautiful country," said Cardinal Logue to Mr. Rockefeller. The answer is not reported, but it is presumed that Mr. Rockefeller said: "I have."

The New Era wishes heartily to congratulate the Bowling Green Times-Journal on securing the services of W. C. Barrickman, of Louisville, as city editor. Mr. Barrickman is an experienced newspaperman and a charming gentleman. He is something of a globetrotter and went abroad as a correspondent during the Japanese-Russian war. We are glad to welcome him to the Pennyrite.

Mrs. Hettie Green is said to be patronizing a beauty doctor in New York. It's a waste of money. Every widow with Mrs. Green's bank roll is rated as beautiful.

John D. Rockefeller is writing the story of his life for an eastern magazine. It is hoped that he will fix a date for the payment of that \$22,240,000 fine by his oil company.

The position of ex-president being vacant, Mr. Roosevelt need not longer worry over the prospect of forcing somebody out of the limelight.

IN NEED OF TROOPS

Gov. Augustus E. Willson has written a letter to County Judge Duffy, of Todd county, disclosing his reasons for the presence of troops at Guthrie, which is of much interest throughout the "Black Patch," the governor going into details as to why troops have been sent to different communities.

Gov. Willson declares he has the right to send troops to that place, under court decisions, which he cites, even when no request for such action is made to him by the county authorities. He says he has made a close personal study of the situation in the tobacco district of Kentucky, and that he has good reason to believe that the presence of troops in Guthrie is necessary as a base of military movements. In his letter he declares that the only purpose of the soldiers is to restrain those who have been or are active in "unlawfully and feloniously banding or confederating to intimidate and injure other persons, and no law-abiding person or officer of the law can make any just complaint of that purpose."

FINE FARM SOLD

The Planters Bank and Trust company, as agent, sold on Saturday the fine farm of R. T. Stowe in the Newstead neighborhood, containing 672 acres. The purchaser is C. R. Boyd, and the consideration was \$35,000. Mr. Stowe will probably remove from Kentucky and make his home in Texas.

Albert Hancock and Miss Carrie Jolly were united in marriage Sunday afternoon at St. Bethlehem, Rev. I. T. Cameron officiating. Mr. Hancock is a prominent young farmer of Fairview, Ky., while Miss Jolly is an excellent young lady of this city. They are spending today in the city with friends before they go to their home.—Clarksville Leaf Chronicle.

COL. GUFFEY'S DELEGATION IS TURNED DOWN

Tom Johnson Gets His Men In—Hon. Henry Clanton Is Permanent Chairman.

DENVER, Col., July 8.—The Hon. Henry Clayton, of Alabama, was installed today as permanent chairman of the National Democratic convention. Urey Woodson, of Kentucky, is permanent secretary, E. Y. Mitchell, assistant secretary. All other temporary officers are made permanent.

The credential committee decided the Pennsylvania contest against Col. James M. Guffey, National committeeman. This is a big Bryan victory and shows that the Nebraska is in absolute control of the situation. Tom L. Johnson, of Ohio, also won his contest. In all other contests, the National committee was upheld.

The committee on resolutions of the Democratic National convention will not report to the convention until Thursday. At 1 o'clock this morning the sub-committee drafting a platform, adjourned until 9 a. m., today at the suggestion of Senator Stone of Missouri. The full committee is instructed to assemble at 5 p. m., today at which time the sub-committee expects to be able to report. The convention will be asked today to meet at 10 o'clock on Thursday and it is the plan to have the report ready for presentation at that time with the idea of having it disposed of by 12 o'clock noon.

Temporary Chairman Theodore A. Bell, of California, made a ringing speech, in which he went at the Republican party with hammer and tongs. "If the Republican party made prosperity, why doesn't the party keep it up?" he asked.

"The inability of the Republican party to meet this inquiry in a satisfactory manner will explode its false claims to whatever blessings a beneficent Providence has vouchsafed to the American people during the last decade.

"In these days of financial panics and industrial depression, we hear but little about the fall dinner party and Republican prosperity.

"The productivity of that soil, t

sunny skies, the gentle showers, everything that grows, creates or yields, somehow becomes a part of Republican prosperity.

"The idea seems to be creeping into the popular mind that if the nominee of the Chicago convention shall be elected in November, we will have a bisected president at the head of our affairs.

"The American people are sticklers on some things, and one of the things that they will not stand for is a divided responsibility in the White House. They will demand, and they have a right to demand, that the heart that conceives, the brain that plans and the hand that executes, shall be directly answerable to the sovereign power that built the White House and selects one man at a time to fill it."

The presentation of resolutions of respect to the memory of Grover Cleveland brought to the front two notable figures, Judge Parker, of New York, the Democratic candidate of four years ago, and former Gov. Francis, of Missouri, one of surviving members of the Cleveland Cabinet. The resolutions as adopted emanated from Bryan's friends and were presented by I. N. Dunn, of Nebraska, who will make the nomination speech for Mr. Bryan.

They were no sooner read than shouts of "Parker, Parker," showed the generous temper of the convention toward the former leader.

Judge Parker was prevailed upon to mount the platform, wherewith resonant voice he read his own resolutions of tribute to Mr. Cleveland, closing with a tactful concession to the Bryan forces by seconding the resolutions presented by them. Mr. Francis' tribute to his former chief breathed a spirit of personal association and deep admiration. With the adoption of the resolutions the convention adjourned until noon today.

BITTEN BY VIPER

HARRODSBURG, Ky., July 8.—Two little children of James Cooper were bitten by a spreading viper while playing in the yard at their home. Both are expected to die. Their limbs are swollen to twice the natural size.

HITCHCOCK NAMED

HOT SPRINGS, Va., July 8.—The executive committee of the Republican National committee met here today and elected Frank H. Hitchcock chairman.

NEGROES SUE NIGHT

RIDERS FOR \$75,000.

PADUCAH, Ky., July 8.—Negroes now living in Illinois, who were run out of Birmingham, in Marshall county, Kentucky, have brought suit in federal court for \$75,000 against Night Riders. No names will be given out until the papers in the case are served by the federal officials.

WETS AND THE DRY NIGHT RIDERS OUT

WILL FIGHT IT OUT IN NEWSTEAD PRECINCT.

To Vote on August 12 as to Whether Intoxicating Liquors Shall be Sold.

A local option election will be held next month in one of the precincts of Christian county, and a lively contest between the wets and the dries is promised. Acting on a petition submitted to him by the number of legal voters required by the law in such cases, County Judge Prowse has ordered an election to take place on August 12 at Newstead in Precinct No. 13 in order to take the sense of the district on whether or not spirituous vinous and malt liquor shall be sold. The election will be held under the supervision of the sheriff, and the polls will be opened from 8 a. m. to 4 p. m. There is but one saloon in the precincts.

PHENOMENAL

Expresses it—The Big Mid-Summer Clearance Sale at Frankel's.

Thirty-five clerks and not enough to wait on the trade. Bargains went like Hot Cake at election time. Not all gone, we have plenty, and if you want your money's worth don't fail to come today. Never before in the history of Hopkinsville, were such crowds on the street, all with their faces turned to the Mid-Summer Clearance Sale!

Frankel's
BUSY STORE

AGAIN ACTIVE IN PORTION OF CALLOWAY COUNTY

Outbreak Follows Series of Inflammatory Speeches.—Band Fires on Homes of Two Witnesses.

PADUCAH, Ky., July 8.—Calloway county, especially the eastern portion, is again on the verge of a reign of terror, although the county authorities claim to have the situation well in hand and decline to discuss recent disorders.

The first news of an overt demonstration by Night Riders reached here in a dispatch from Murray stating that more than 200 men surrounded the homes of Frank Mardis and Willie Dyer Sunday night and fired hundreds of shots, some of the bullets striking the houses. The raiders kept at a sufficient distance from the houses, so that they could not be recognized. These two men disclosed secrets of the organization and identified members of the band.

As circuit court convenes in August it is believed an effort is being made to intimidate witnesses and influence the minds of prospective jurors against doing anything to arouse the hostility of the night riders. More soldiers probably will be sent into Calloway county and patrols re-established in the eastern portion.

The outbreak has followed a speaking campaign. Some of these speeches, particularly those made at a schoolhouse in the vicinity of Mardis' residence, were openly incendiary in character.

KENTUCKY UNDERTAKERS.

LOUISVILLE, Ky., July 8.—The undertakers of Kentucky are here today attending the eighth annual convention of the Kentucky Funeral Directors' association. The meeting will continue three days and an attendance of about 250 is expected. The state board of embalmers will hold examinations in embalming this afternoon. At the close of the session a trip to Mammoth Cave will be taken.

Harry L. Harton, of this city, is attending the convention.

UNEXPECTED DEATH.

Of Ed Croan, Ex-Representative and Author of Noted Dog Law.

Edward Croan, twice representative from Bullitt and Spencer counties, and one of the foremost business men of Bullitt county, died Saturday at Shepherdsville. His death was due to acute diabetes, which was the result of a malignant carbuncle that appeared on his neck about a month ago.

Mr. Croan was a staunch Democrat, and always took an active part in politics. He was elected the fifth time to the legislature from Bullitt and Spencer counties in 1901 and again in 1905. He took a leading part in the proceedings of the legislature. In 1906, he was the author of the famous dog law, over which there has been so much controversy for the past two years and which was recently decided as constitutional by a divided court of appeals, the vote being 4 to 3.

STREET RAILWAY

At Clarksville Goes into The Hands of Receiver.

CLARKSVILLE, Tenn., July 8.—The Clarksville Street Railway and Light Company went into the hands of a receiver yesterday on petition in Federal Court at Nashville from the United States Trust Company, one of the largest creditors. The company controls the lighting and street railway franchises of the city and it is said the action was caused by a disagreement among the stockholders over the sale of the system to a Memphis syndicate which has had a representative in Clarksville during the last ten days looking over the property.

FISCAL COURT MET

Piking of Roads.—Appropriation For The Poor.—Settlement With Mr. Smith to be Made.

The July meeting of the fiscal court was held Tuesday at the courthouse. Judge Prowse presided and following justices were present: H. B. Clark, J. F. Dixon, T. H. Moore, J. M. Morris, W. L. Parker, John W. Rogers. A batch of small accounts against the county was allowed. The committee composed of J. K. Twyman, W. L. Parker, T. J. Jameson and D. C. Williams reported that they had let a contract to B. Nuckells for the construction of two miles of turnpike on the Nashville road at \$1,812 a mile. The report was received and filed. A contract with T. J. Jameson by which he guarantees the payment of subscriptions for piking a portion of the Nashville road was approved. The reports of W. J. Murphey, road supervisor, and J. K. Twyman, county engineer, were received and filed. It appearing that there were no funds in the hands of J. G. Hord, commissioner of the poor fund, the sum of \$1,000 was appropriated for paupers outside of the poor house.

J. M. Morris was appointed a committee to inspect the turnpike on the Greenville road. An order was made for J. J. Garrett, commissioner, to make, at the August meeting of the court, a detailed report of the construction of three miles of turnpike on the tobacco road. The sum of \$112 was appropriated to pay for the treatment of a colored boy who was bitten by a rabid dog. A settlement with David Smith of all moneys and matters in his hands as sheriff, in which the county has any interest, was ordered made and Senator Frank Rives was appointed to make the settlement and report to the court at the next meeting. O. H. Anderson and Senator Rives were appointed a committee to examine all sheriffs' settlements and books for a period of five years, past, and make a detailed report of same to fiscal court.

CHAPTER V. To the Rescue.

NISH, who had obediently followed De Joldon and Natalie at Popoff's orders until they had entered the summer house, now wriggled forward in confusion on hearing the ambassador's voice.

"Did you call me, sir?" he asked.

"I most surely did call you, Mr. Nish," cried Popoff. "And I told you I was certain I saw a lady, or, rather, a lady's skirt, disappearing into that summer house. Who was she?"

"I—I don't know, your excellency," tremblingly lied Nish.

"You ought to know," scolded Popoff. "You were standing nearer the summer house than I was. Didn't you see her at all?"

"Yes, sir—yes, I saw her, if I may say so, but I don't know who she was, I really don't. I—"

"Was she alone?"

"No, your excellency, not quite alone. There was, if I may say so—there was a gentleman with her. At least he looked like a gentleman, but I didn't recognize him either."

"Well, well, well!" chuckled the ambassador, seating himself in a garden chair and eyeing the summer house with delightful interest. "A little flirtation, eh? Gone in there to whisper sweet nothings where no one can interrupt 'em. I wonder who they are! Now, I really wonder! Mr. Nish, I would not for the world have you think I am the least bit curious. But—I'll just sit here awhile, for a joke, and watch them come out. In the mean-

time, Mr. Nish, you might slip around to the rear of the summer house and see if there is another door there. If there is, you might lock it. Understand?"

"Ye-yes, your excellency!" mumbled panic stricken Nish, scuttling away among the bushes. The little clerk never paused until he had found Sonia. To her he poured forth the whole story, gazing with wild horror as she broke into a peal of uncontrollable laughter.

"Suddenly she grew sober.

"Her husband will never forgive her," she murmured, half to herself. "He will never understand that it's just a silly, harmless, sentimental talk they're having."

Memories of the ways of jealous Marsovian husbands flashed into her mind. In that primitive fatherland wives had been beaten—yes, and murdered—for less. Something must be done, and done quickly.

"Don't worry!" she consoled the terrified Nish. "Say nothing to any one else. I'll get Mme. Popoff out of the scrape if I can."

Before Nish could reply she had disappeared down a path leading to the rear door of the summer house. Meantime Popoff, his curiosity mastering him, had left his seat. Stealing forward on tiptoe, he put his eye to the keyhole of the wicker door.

He had scarcely bent over this when Danilo, happening to pass by on his way to the gate, paused in amazement at sight of the Marsovian ambassador thus assuming the role of Paul Pry.

"Why, hello, old chap!" cried the prince. "What are you up to?"

"Hush!" warned Popoff in an excited whisper. "A lady went into the summer house a few minutes ago with a gentleman. I can't see them very clearly. There's too much fluff in the keyhole. But they're sitting opposite each other with only a little table between them. The lady's back is to

me, but it somehow looks familiar. The man is talking as earnestly as if he were trying to borrow money. Now he's bending across and kissing her hand, and she doesn't seem to mind. It's—why, bless my soul, it's that fellow De Joldon! Well, well! Of all things! Now, if only the lady would turn her face so I could see her!"

"Come away, sir!" begged Danilo. The whole situation bursting upon his mind. He caught Popoff's sleeve, but the ambassador shook him off.

"Let me alone!" he whispered. "Can't you see what it all means? It means we've found the lady De Joldon's in love with, the very woman we've both been looking for! And now if she'll just turn her head a little I'll be able to see her face, and then—"

"Then you don't know who she is?" queried Danilo.

"No. But I'll—"

"Then take my advice and don't try to find out. Let well enough alone. Come away, old chap, and—"

"No, no! There you pulled my head away just as she was turning around. I'd have seen her in another second. They're getting up. Maybe they'll go out by the other door, and then I shan't be able to know who—"

"Let me do the looking," suggested Danilo. "If either of us has to play the eavesdropper I'll—"

"No. It is my place," asserted Popoff. "But I'll bet you a hundred francs it's Mme. Nova Kovitch."

"It would be like stealing a drunken man's watch. I won't take the bet. Come away, sir, and let the matter drop where it is. For your own happiness—"

But Popoff was once more at the keyhole.

"They're standing up to go," he reported. "Now she's beginning to face this way. It's—Oh, good Lord!"

The poor old man staggered away from the door as though struck between the eyes. Reeling to a chair, he collapsed and buried his face in his hands.

"No, no! It can't be! It can't!" he moaned. "And yet I could hardly be mistaken. My wife! And—"

"Brace up, your excellency!" entreated Danilo in genuine distress. "Pull yourself together. There are people coming along the walk. Don't make a scene. Perhaps you were mistaken."

"No; I saw her," growled Popoff. "My own wife and De Joldon! And he kissed her hand!"

"Oh, I dare say she was more kissed against than kissing!" Danilo observed consolingly. "But be careful, sir. A whole lot of people are within earshot."

"Then let them know the worst!" cried Popoff in a voice that brought a number of guests hurrying to the spot. "I'll denounce her before them all! Come out of there," he bellowed, rushing forward. "Loch of you! Come out!"

He threw the summer house door wide open and shrank back, incredulous, aghast.

On the threshold stood De Joldon and—Sonia!

"What—what does this mean?" gurgled the confused ambassador. "This—this change and—"

"You called to us to come out," returned Sonia calmly. "May I ask what you wanted of us?"

"Sonia!" gasped Danilo. And through the confusion of many excited voices she heard him and thrilled to the note of anguish in his half stifled cry.

"If—if it was you who were in there with M. de Joldon?" stammered Popoff. "Where is my wife?"

"Here I am, dear," answered Natalie, stepping out of the crowd, with which she had mingled after her hurried exit through the rear door of the summer house. "Here I am! What is the matter?"

"Matter enough!" cried her husband. "I could have sworn I saw you sitting in that arbor with M. de Joldon."

"My dear!"

Natalie's exclamation was a triumph of shocked propriety.

"He was kissing your hand, I thought," went on the dazed ambassador.

"This time Natalie moved away from him in offended dignity. But Popoff hastened to throw his arm about her and draw her back.

"I was wrong," he assured her—"a blunder of eyesight! I apologize! I'm sorry. I—"

"I begin to understand," put in Sonia, stepping forward in fear, lest Natalie overdo her pose of virtuous indignation. "It seems that the Marsovian ambassador has done me the honor to listen at a keyhole in hopes of overhearing my conversation. Sooner than disappoint him, M. de Joldon, will you please repeat to him just what you said to me in there?"

De Joldon understood. If Natalie was to be saved, if Sonia was not to be talked about, heroic measures were necessary.

"I asked Mme. Sonia Sádova," said he, "to do me the honor to become my wife!"

Danilo stood motionless, his lips set in a white line, amid the buzz of congratulations and laughter that followed De Joldon's announcement. Sonia noted his agony and said joyfully to herself:

"My prince, I think I've won! You'll have to speak, soon or late, now, and when you do—"

"And Marsovia loses the twenty millions!" Popoff muttered, recovering his self possession and somewhat belatedly remembering his country's needs.

"Prince," called Sonia mischievously, "I haven't heard your congratulations yet. You don't look as happy as you might at the news."

"Happy!" echoed Danilo, with a scornful, mirthless laugh. "Why shouldn't I be? Accept my congratulations, my paternal blessing and anything else you choose to levy on me for. My own motto is, 'Love when you may, propose seldom and marry—not at all!'"

"Let me tell you a little fairy story: There were once a prince and a princess. They loved each other. But the prince was poor and dared not tell of his love for fear of being thought a fortune hunter. His silence made the princess angry. So she went and promised her hand to another man, and they all lived miserably unhappy ever after. And the moral of that stupid little story is that I'm sick of respectability, and I'm awake from my crazy dream of love, and I'm going back to Maxim's, and you can all go to—Marsovia!"

"He loves me! He loves me!" panted Sonia under her breath.

"He loves me! He loves me!" panted Sonia under her breath.

IT SAVED MY LIFE. WRITES: ECZEMA PATIENT.

Bed-Ridden Sufferer Completely Cured by Use of D. D. D. External Wash.

One of the most remarkable Eczema cures recently credited to the well known D. D. D. Prescription has just been recorded in Chicago.

Mrs. E. Hegg, 1550 West Madison street, under date of Dec. 9, 1907, writes as follows:

"I suffered three years with Weeping Eczema. It started with a little spot on my knees and spread fast all over my body. I spent hundreds of dollars and went to every good doctor I heard of, but kept getting worse. Nothing would stop the awful itch and burning.

"I had to stay in bed from the middle of May to the middle of July. Then I tried D. D. D. Prescription. This is the 9th of December and I am entirely free from the terrible disease. D. D. D. saved my life.

"When I began this treatment, people were afraid of me. I looked so terrible. My husband was the only one who would care for me. D. D. D. stopped the itch at once so I could sleep, which I had not done before. Then I began to get better fast and now my skin is clean and white, not a spot anywhere."

Just a few drops of D. D. D. Prescription applied to the skin brings relief—nothing to swallow or drink. We vouch for D. D. D. Prescription, also the cleansing D. D. D. Soap. Get a bottle today if you have any skin disease. Begin your cure at once. For sale by L. L. Elgin.

CHILD INJURED

The eighteen month old son of Mr. and Mrs. Bryant Baker was struck by a buggy Sunday afternoon and badly, though not seriously injured.

The little fellow was playing about the yard and in the play ran out into and down the street. He did not notice a buggy which was approaching and ran into it, barely escaping the horse's feet. The child's head struck the front axle and he was knocked down and a long gash cut across his forehead. A physician was hastily summoned and the wound dressed, several stitches being required to close it. This morning the little fellow is able to be up.

LARGE ATTENDANCE

AT THE MEETING OF THE PLANTERS' ASSOCIATION.

Rosy Reports From Every Precinct.

An Address by Vice-Chairman
W. T. Fowler.

(From Monday's Daily)

The attendance at the meeting this morning of the Christian county executive committee of the Planters' Protective association was the largest which has been noted in some time, the courtroom being nearly filled with interested listeners. The meeting itself was a most satisfactory one in every way.

The reports from the precinct committees showed the conditions throughout the county to be in admirable shape; the organization being practically solid everywhere and with no lawlessness or friction anywhere. As to the growing crop, the reports show that the acreage this year will be about 85 per cent of what is regarded as the average, this being from 15 to 20 per cent above last year. The crop was shown to be in only fair condition, it being very irregular in height, many fields very grassy and lots of hills missing.

The question of whether or not the Christian county branch of the association should hold a picnic or barbecue was discussed, and Chairman Radford finally announced that each committeeman should talk the matter over with the members in his district and be prepared to report at the next regular meeting and from these reports it would be decided whether or not the picnic should be held. In case it is decided to hold the picnic the time and place will be selected at the next meeting.

Chairman Radford also made an explanation of the closing of the books on August 1, there being considerable misunderstanding on this point. The chairman stated that this applied only to pledges for the 1908 crop, the books for which were opened on May 1st. This year closes the three year term pledges.

Vice-Chairman W. T. Fowler addressed the meeting, and was warmly applauded. Judge Fowler congratulated the farmers on the unquestioned success which had crowned their efforts and encouraged them to a continued strict adherence to the pledges and called upon them for a determined condemnation of lawlessness in all its forms or anything tending in that direction, stating that there was no place within the association for such methods. He urged the members to be patient in the matter of sales, pointing out that the opposition to the association would not buy the tobacco until they had no other recourse; that crops of the preceding four years had been disposed of clean and that there was no reason why the one now on hand should not be sold also and at satisfactory prices at that. He also stated that in his opinion, the members should not expect business men to take as deep an interest in the organization as farmers do, or expect them to join.

He cited as an illustration that if a grocers' organization were formed and farmers were asked to join they would refuse for the reason that they knew nothing of the details of the grocery business, and therefore were not interested further than the sympathy which they might have for the grocers. He said that this was not a parallel case but very near it; the business men sympathized with an encouraged the farmers in the fight but when it came to joining and taking the interest like a farmer it could not be expected. In regard to the picnic Judge Fowler said he was in favor of it; to hold and old fashion barbecue and invite every body in the county to come, and to come with a heart full of neighboring good feeling and good fellowship and let the spirit thus engendered wipe out all animosities and ill feelings which might be apparent.

Just before closing Chairman Radford, after a consultation with Squire H. C. Helsley, county president of the Society of Equity, stated that a report had been circulated that the friendly relations heretofore existing between the Society of Equity and the Planters' Protective association had ceased and that there was also open enmity now between the organizations. Chairman Radford emphatically denied that any such state of affairs existed and expressed the warmest good feeling upon the part of the association for the Society of Equity. President Helsley then made a talk in which he reiterated the sentiments of Mr. Radford and gave an account of what the Society of Equity had done in this county. After this he

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow of Jefferson Med. College; Prof. Hare of the Univ. of Pa.; Prof. Finley of Chicago; Prof. John King, M. D. of Cincinnati; Prof. John M. Scudder, M. D. of Cincinnati; Prof. Edwin M. Little, M. D. of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than a hundred ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

S.S.S. CONTAINS NO MERCURY

Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and he is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S., in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write.

What "Sanito" Is

It is the ware you see advertised in all the leading Ladies magazines, especially those dealing with the culinary art. It is never sold at retail and you cannot buy it from the manufacturers for a penny less than \$2.50 per set and expressage. The great excellence of earthenware cooking vessels over tin or iron is known to all, but the difficulty has always been the increased cost of the earthenware. By using Sanito earthenware cooking vessels you secure the very best results, the food will not burn or stick, there is no danger of ptomaine poisoning and no odor remaining in the vessel.

Sanito ware, produced by a skillful blending of clays, is mechanically perfect, of convenient sizes and shapes for all ordinary purposes. Sanito will cook food evenly and without burning it. It has an inside lining burnt right into the clay, which is absolutely acid proof, and never cracks nor scales. You can cook anything from strawberries to cabbage in Sanito without one kind becoming tainted or discolored from what preceded.

Doctors, hospitals, sanitarians and thousands of progressive housekeepers use it exclusively. Its cleanliness and wholesomeness makes it especially valuable in preparing food for the sick, while for all general cooking purposes it should displace unwholesome and dangerous metal vessels.

The fact that Sanito is a non-conductor of heat makes it more economical to use than other ware. It retains heat much better than metal. It will be particularly welcome in homes where the difference between "cooked" and "well cooked" food is appreciated.

How To Get It

To every person who subscribes to the Weekly New Era, paying \$1.00 for one year in advance and 98c for expressage and packing charges, we will give ABSOLUTELY FREE a full set of this \$2.50 ware—the genuine Sanito.

BALL IN SHOULDER

BROUGHT FLEEING BURGLAR TO
A HALTThree Young Negroes Attempted to
Rob Ware Room in Rear of Clark
& Co's, Grocery.

An attempt was made Friday mid-night to rob the storage house of Clark & company on Eighth street in the rear of their grocery. Former Policeman Clem Davis discovered three negroes in the act of pulling goods out of an opening in the building. He notified police headquarters, and Officer Hadden hastened to the scene. Assisted by Mr. Davis, the policeman made an effort to capture the burglars. Two of them escaped, and the third, Albert Wallace, was caught. Just before starting to the lock-up, Wallace broke away from his captors and ran down Eighth street. To frighten him and make him stop running, Officer Hadden and Mr. Davis fired in the air in the direction of the fleeing figure. A bullet struck the negro in the shoulder inflicting, it is stated, a painful, but not dangerous wound. Wallace claims it was a ball from Mr. Davis' pistol that hit him. He stopped running, and gave the names of the other housebreakers as Sam Bowles and Jerry Chappell, both of whom were subsequently arrested. Wallace was taken to his home and his wound was attended to by Dr. Harned.

Over Thirty-Five Years.

In 1842, there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and had for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by Anderson-Fowler Drug Co., (Incorporated.)

PLAGUE OF INSECTS

BUGS OF ALL KINDS ARE VERY
PLENTIFUL.

Insects of all kinds are more plentiful in this region this year than have been known in a long time. Everything from ants to tobacco and horse flies are to be seen and fought on every hand and there seems to be no way of getting rid of them.

The pestiferous little ant is especially obnoxious. Houses that never before harbored these pests are over run with them this summer. House flies are unusually abundant.

Caterpillars, moths, beetles of all kinds, potato bugs, cut worms, grasshoppers and scores of other insects are everywhere. The farmers are already taking steps to prevent the ravage of tobacco worms by poisoning the fly which is the forerunner of the worm. Every night when the electric lights are lit thousands of bugs and beetles swarm about the luminaries and in time hundreds of them fall to the ground either dead or badly injured. This occurrence has been noted by the toad frogs and under every light there is always a large number of toads feasting on these bugs.

DENVER, Col., July 3.—The friends of Urey Woodson, secretary of the Democratic National committee, are pushing him for chairman of the committee and argue that his long experience as a member and as an official of the committee well qualifies him to act as its head during the coming campaign.

Mayor James C. Dahlman, of Omaha, has also been boomed as a fitting chief for the chairmanship, but he does not desire to be considered in connection with the race, as he decided to enter the race for governor of Nebraska and intends to devote his energies to that political ambition.

DOGS TO BE TAGGED

The city council held its regular monthly meeting Friday night. One of the most important acts was the adoption of a new dog law by which it is hoped that the number of dogs in the city can be controlled and that any threatened spread of hydrophobia can always be checked and held in hand. The new law requires every dog kept within the city to wear a tag showing that the owner has paid \$1 tax on the animal for that year. All dogs caught on the street without such a tag can be killed by the police. Further, the council reserves the right at any time when hydrophobia appears and a spread is threatened, to require all dogs within the affected districts, or if necessary the entire town, either to be muzzled or kept locked up until the danger is past.

The tax books as compiled by City Assessor Hayden were accepted. It was ordered that a small piece of ground located near the stand pipe and which belongs to the city should be sold to the Dalton Stone company along with other property which the company is purchasing in that region.

NAMES MAN IN JAIL

TO MAKE RACE FOR PRESIDENT
OF UNITED STATES

Candidate of the Socialist Labor Party
Martin Preston Will Head
The Ticket.

NEW YORK, July 7.—Candidates for president and vice president of the United States were nominated and a platform was adopted by the national convention of the socialist labor party here. The ticket named is as follows:

For president, Martin R. Preston, of Nevada; for vice president, Donald Munro, of Virginia.

The nomination of Preston for president was unanimous. The candidate was placed in nomination by Daniel DeLeon, who characterized the man he was naming as "an honest workingman, not a professional workingman." And added: "The name of that man is Martin R. Preston, and he is now in jail at Goldfield, Nev. Preston is in jail today for conduct that is honorable and which no workingman should be ashamed of."

DeLeon explained that Preston had been sentenced to twenty-five years imprisonment for shooting a restaurant keeper in Goldfield three years ago during a strike. Preston, DeLeon asserted, had acted as the protector of defenseless girls and by so doing had enraged a restaurant-keeper by the name of Silver. Silver, Mr. DeLeon said, was shot by Preston had not reached the age which the constitution says a president of the United States must be, but he declared that made no difference.

"It is for the working class to elect Preston," he said, "and if he is elected he will be seated. Constitutions are for the people and not the people for the constitutions."

The platform is identical with the one adopted by the party four years ago and declares for the substitution of the co-operative commonwealth "for the present state of lawless production, industrial war and social disorder."

INDIAN SKELETON

Buried, possibly before Columbus discovered America, a coffin, probably of flint, containing the bones of a matured being, was unearthed in the Griffith neighborhood and the discovery has caused much excitement in that section.

The bones are believed to be those of an Indian. The bones were turned over to Dr. Aud, at Stanley, who now has them in charge. The substance of which the coffin is made has the appearance of slate, but is thought to be a flint substance which was much used in olden times for such purposes.

A road crew scraped a part of the coffin, and attention was called to the fact, but no attempt was made at the time to investigate it. On Sunday afternoon John Skillman saw the slate looking object, and with James Taylor secured a pick and shovel, believing that they had discovered a rich coal vein, and started an investigation. Instead of coal they brought to the surface parts of a peculiar shaped coffin and the bones of a human being. The coffin was buried in the ground about one foot and was built in such a shape to allow the corpse to be buried in a sitting position. The coffin was found on the public road on the edge of Mrs. Mary Gaw's farm one mile north of Griffith.—Owensboro Messenger.

PLACES ABOLISHED

The state board of control has decided to abolish a number of positions at the asylums and six Democrats will get the ax. Those losing the positions can thank the Republican members of the board for their generosity, because no sooner had Stanley Milward of Lexington, been appointed than he began laying awake at night studying out what he terms as "useless positions." Col. Scott was not so anxious to find this "useless positions" for he believes in building up the forces of the institutions instead of tearing them down or reducing them.

At Lexington three positions have been abolished by the board of control. These are treasurer, inspector and pathologic physician.

At Hopkinsville three positions were abolished. They were house-keeper, farm boss and treasurer.

HAVE NEW UNIFORMS

If Hopkinsville has no regular games of baseball it has a crack team, and the handsomest uniforms to be seen out of the cities. About the first thing Frank Bassett did when he struck town was, as usual, to begin talking baseball. The next thing he did was to get up a subscription with which uniforms were ordered. These have now arrived and they are certainly beauties. The shirt and pants are steel gray, the shirts have the new military collar. The cap is gray with blue visor. The stockings are deep red and a blue "H" is on the shirts.

The team played two games on July 4 at Trenton and both contests were witnessed by large crowds. In the morning, Hopkinsville won handily by a score of 7 to 0, with Byars in the box. In the afternoon, Trenton won mainly by reason of overconfidence on the part of the visiting team. The score was 11 to 10. Elloth pitched. Cliff Wilkins caught both games. The line-up of the locals was as follows:—Edwards, S. S.; Morris, 2nd B.; Hadden, 3rd B.; Byars, P. and C. F.; Wilkins, C.; Bassett, 1st B.; Wall, L. F.; M. Hadden, R. F.

The Mysterious Disappearance of a Railroad Hand Said to Have Been Under Suspicion.

(From Friday's Daily)

A detachment of soldiers left the city yesterday afternoon and, it is reported, will establish a camp in Caldwell Co., near Cobb. No information concerning the movements has been given out by the officers in charge. It is also reported that there have been several Night Rider outrages in that section, the news of which has been suppressed.

A member of an I. C. section gang is said to have been called from his house at night and that he disappeared. He is still missing unless he has turned up very lately. The missing man, it is stated, was suspected of being a spy.

MAN MISSING

Believed to Have Been Killed by Bear

PRINCETON, Ky., June 3.—A great deal of excitement prevails here on account of a large black bear being seen in the woods near Lake Rabbitt, one mile north of Princeton. A few days ago a man with a bear passed through this city, and the bear seen to-day is supposed to be the one in charge of the man, who when last seen was drunk. The general supposition is that the man was killed and torn to pieces by the bear. A large crowd of citizens went out to Lake Rabbitt late this afternoon in search of the man, but found no trace.

HAVE BROKEN CAMP

THE SOLDIERS AT ROCK CASTLE RETURN HOME

The Only Troops In Trigg County At Present Are Located At Golden Pond.

The company of soldiers that have been stationed at Rock Castle for the past six weeks, have broken camp and took their departure Tuesday. Most of the company left by boat, but a detail, under command of Lieut. Ben Winfree, of Hopkinsville, passed through Cadiz Tuesday with the horses the men have been using, taking them back to Hopkinsville. The company now at Golden Pond are the only troops in the county.—Cadiz Record.

IN THE PEN

EDDYVILLE, Ky., July 3.—Dr. E. Champion, convicted of night riding, has arrived at the penitentiary. There being no prison clothes large enough for him, he was allowed to retain his business suit until a special order can be filled. His assignment is the place of assistant to the cell clerk and his special duties will have reference to the mails. The attorneys in the case will prosecute an appeal from Judge Reed's ruling, and express confidence in obtaining a reversal, but in the meantime the prisoner will be making time on his sentence and in the ordinary course half this time will have been served out before a decision can be reached.

NOTED EDITOR DEAD

CINCINNATI, July 3.—Murat Halstead, veteran newspaper editor, died at his home here from a cerebral hemorrhage. Halstead was taken sick a few days ago and grew steadily worse until the end. Murat Halstead was born Sept. 2, 1829, in Butler county, Ohio. In 1853 he began work as a reporter on the Cincinnati Commercial, buying an interest in that paper in 1854 and becoming its head in 1865. The Commercial was later consolidated with the Gazette and Murat Halstead was made editor-in-chief. He developed the paper into one of the leading journals of the country.

Mr. Halstead was one of the great editors of the last half of the nineteenth century, and one of the strongest tributes to his incisiveness as a writer was in 1889, when his nomination by President Harrison to be American minister of Germany was rejected by United States senators because of articles he had published charging corruption of some members of that body. In the Civil war Mr. Halstead personally reported many battles, being rated as a war correspondent of the first class, and later in the Franco-German war and also in the Spanish-American war he added to his reputation in that line. For fifty years he attended and reported all Republican National conventions, and in 1880 he was the only newspaperman who reported all the various political conventions of that year.

ON A BOND OF \$1,000

The case of Marcellus Rhinehart, who was in jail charged with killing Al Fielder was called today at 11 o'clock. Attorney General Lyle only reached the city this morning and not having had opportunity of investigating the case, asked that it be laid over until 1 o'clock, which application was granted.

At 1 o'clock the case was again called, when Mr. Lyle announced his agreement to a bond of \$1,000 being given until the next session of the criminal court in August. In a few minutes the bond was signed by twenty citizens of the district in which Rhinehart lives and the prisoner was released from custody. The attorney general upon investigation of witnesses found about the same testimony that has been published, showing it apparently a case of self-defense, in view of which fact the bond was placed at the amount named.—Clarksville Leaf-Chronicle.

People's Cure
for Stomach Ills

It would be folly to say that a person should always be his own doctor. There are times when one cannot be too quick in consulting a competent and reliable physician, but the fact does remain that there are many ailments that can be cured at home at very little expense. Such remedies can be bought at any first-class drug store for a small sum.

Among the diseases that can be effectively treated at home are such as pertains to the stomach, liver and bowels, like constipation, dyspepsia, biliousness, flatulency, sour stomach, bloated stomach, sick headaches, heartburn, etc. For these troubles there is no better remedy than Dr. Caldwell's Syrup Pepsin, the great herb laxative compound, and among its staunchest friends are the doctors themselves. In such troubles they know they have nothing better to offer than the medicine contained in this remedy, and hence the liberal ones advise their patients to take it. It often happens that at the commencement of an attack some people hesitate—such as a simple remedy, and run to a doctor, but after trying various doctors they find that Dr. Caldwell's Syrup Pepsin and have their condition rewarded by a cure. A good case in point is that of Mr. J. H. Lawrenceville, Ill., who suffered from what the doctors called "burn of the stomach." He was given up to die by three leading physicians. He had no food, could not digest what little he did eat, had severe pains in the stomach, and found moments when he himself thought he would die. Finally he was advised to try Dr. Caldwell's Syrup Pepsin and did so, and now he is cured and has gained 25 pounds. He naturally advises all sufferers from weak stomach to use it. It can be had in 50 cent and \$1 bottles, and results are absolutely guaranteed or money is refunded.

Buy a bottle to-day and watch results.
FREE TEST. Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can send for a free trial bottle to the nearest drug store, or to the manufacturer, Dr. J. C. Caldwell, 119 Caldwell Bldg., Monticello, Ill. The product bears purity guarantee No. 17, Washington, D. C.
